Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) The invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 21-26 and 59-70 are rejected under 35 U.S.C. 102(e) as being anticipated by Kain (6,550,862). Kain discloses the use of a seat portion (10) including a base (98,fig.1) having a seating surface (12); and a object holder (18) attached to the base and moveable between an extended, in use position and a retracted storage position (figures 1-2); wherein the object holder includes a cavity for receiving objects; and wherein the cavity (38) is partially under the seating surface in the storage position, see figures 3-4. In regards to claims 22,60 and 65, the object holder is pivotally (fig. 3) attached to the base. In regards to claims 23,61 and 67, the object holder includes an extension (22) slidably connected to the base and positioned under the seating surface, see figure 3. In regards to claims 24, 62 and 65, the extension includes a slot (56), and the base includes a post (68,figures 2-3) positioned in the slot to limit a sliding potion of the object holder. In regards to claims 25, 63 and 69, a second object holder (92)

attached to the base. In regards to claims 26 and 70, the object holder is configured so that when the object holder is moved under the seating surface a portion of the object holder remains accessible, thereby providing a gripping surface. In regards to claim 59, further comprising a base having a seating surface; and an object holder movably attached to the base to move between an extended, in use position and a retracted storage position, the object holder having a cavity for receiving objects; wherein when the object holder is in the retracted, storage position, a first portion of the cavity extends beyond an outer side surface of the base, and a second portion of the cavity does not extend beyond the outer surface of the base, figures 1-4. In regards to claim 64, further comprising an object holder only partially retracts within the base in a retracted, storage position such that a first portion (figures 1 and 4) of the cavity remains extended from the base and a second portion (figures 2-3) of the cavity retracts within the base. In regards to claim 66, the object holder is slidably attached to the base.

Response to Arguments

Applicant's arguments filed 8/20/04 have been fully considered but they are not persuasive.

Applicant's arguments with respect to claims 21-26 and 59-70 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

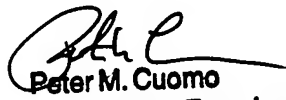

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
